See a Few of Our Successful Projects

From warehouses, retail stores and gas stations to office complexes, schools and hotels—let SARIN customize your lighting to its true potential. Regardless of what industry you are in—or if you have too much or too little light—you can take advantage of all the benefits LEDs have to offer. See more at sarinenergy.com/success

Chuck Anderson

Building a Relationship to Perfect Lighting in the Showroom and on the Lot

Chuck Anderson Ford needed to update old lighting to showcase their valuable vehicles and reduce power usage. Replacing the exterior floodlights and interior lights not only helps sell cars, but also saves the dealership **\$9,623** in utility bills annually.

Upgrading to LEDs Makes Food Look More Appetizing for Local Grocery Store

Happy Foods was using numerous fluorescent tube lights. Aside from producing uneven yellow light they generate heat which is a problem near perishables, especially in coolers. Now their food looks better and stays fresher, plus they cut utilities by **\$21,679** a year.

Making the Food Your Pet Loves Has Become Safer and Easier

Mars Petcare has been in business for over 75 years and creates three of the top five pet food brands in the world. New LEDs save **\$13,504** in yearly energy costs, but combined with sensors for smart adaptive lighting their resources will stretch even farther. Best of all, workers now have a much safer warehouse.

Creating Better Ambience with Stylish Hotel Lighting Means Higher Reviews

Holiday Inn Express in Shawnee, KS wanted to welcome guests with a more appealing atmosphere. With our huge selection of interior and exterior lamps, they were able to create the exact experience they desired. Reducing their electricity usage by **\$12,052** annually was just an added bonus.
